stalls, with scarcely a vestige of the is a wager-road from Langworth's place building remaining. The people had to the vallage, and he wought this means only ten minutes' warning of the hurri-cane of fire, and no time to comprehend flames, sweeping everything before them, the situation. the situation. They rushed into the and traveling so fast that he had to strain streets and started for the river, but were every nerve to keep ahead. Where the overtaken by the storm of fire, and fell fire met with an open space or a small in the middle of the streets. One man, swamp, its progress was checked for a carrying his wife approached the river, moment, and the farmer could get clear but the blast drove him over some ob- of the flying sparks. But no obstacle from her. He picked up a woman, supposing her to be his wife, carried her to leap over until they caught a mass of be another man's wife, and his own was ment the fire was cating each way and lost. One man was sick of typhoid fever; progressing forward nearly as fast as a a young man stopping with him took the man could run. Almost stifled, his throat ed him in the sand. He was saved, and his lungs feeling as if a knife was at work

creases every hour. On Friday last flames which had been sweeping down twenty-six dead hodies were found in the from another direction, suddenly jumped woods, and Saturday thirty-six. The across the road in front of him, half a woods, and fields are literally full of dozen trees flaming up at once. Belind dead bodies, and many were burned en- was the main fire, to the right was a solid The antic ball man yearly brone as many carly the beautiful that remained of a promising ready taking fire on the left side.

The paths of given particular that a week ago it was a forest boy. Truly in this case the darkness it was now a race for life, with the preceded the light. On Sanday night, chances against escape. Turning to the preceded the light. tirely. We found some teeth, a juck- sheet of flames, and the only avenue of Egyptian, could be felt. Then came light object, when he encountered a "swale" of gusts of wind, and in the south was seen considerable extent, and found that he through the smoke and darkness faint must turn toward the main fire and considerable. their last prayer. More might have been and struck the high ground. saved if this conviction had not seized In turning and twisting, and bewilderthem. One man gathered his family in- ed by the smoke, he had lost all knowlsequences, and if they believed prophecy, had they not reason for this belief? A more open, and the leaves had been well day of durkness and of gloominess, a day cleaned off by the wind, he was not so of clouds and of thick darkness, as the closely pressed. Almost every moment morning spread upon the mountains. A he ran across wild, all fleeing for a place fire devoureth before them, and behind of safety, and losing their fear of man in them a flame burneth: the land is as the the general desire to escape the more re-Garden of Eden before them, and behind lentless foe pressing behind. At length

from home, every object taking on a strange look to mislead his steps. The farmer and a cow and several herds of young stock, and these were suffering so terribly from the smoke that he turned them loose on Sunday afternoon to care for themselves. They started off in the direction of the village, but probably per-ished in company with scores of other do-mestic animals. Langworth's well had been without water for a week, and his only resource was a small creek about forty rods from the house. By digging a hole in the bed of the stream about a barrel of water would collect during the day

about in a stupid way, blinded by the smoke, and would hardly move away when

Passing on to Peshtigo we found the so dense and the roar and noise of the fire hour six Monday morning, the smoke was

struction, and, falling, he was separated could long stop the progress of the flames, the river, and saved her. It proved to grass or a heap of leaves, and in a mosick man out back of the house and buri- so purched that he could not swallow, and rapidly gaining his health there, Langworth stumbled forward the half has not been told; the whole scarcely hoping to make his escape.

October 9, just after the churches were left the farmer hoped that by making a closed, for half an hour there reigned the sharp run for it be might head off the stillness of death. The smoke settled fire, turn its path and again reach the down so thickly that the darkness, like road. He had almost accomplished this glimmers of light. The earth trembled, deavor to work around the "swale" be and the roar of the approaching tornado fore the flames should reach it. Sparks and the shock of the falling trees broke and cinders were falling all around him. the awigi stillness. No one could realize The ground was covered with dry leaves. the approaching danger when in almost a the wind sweeping through the trees in moment the holocaust was upon them, gusts, and several times Langworth had The fire, in its maddening rage could not to leap over the running flames. In one keep pace with the wind, and trees, and of his leaps he tripped and fell, plunging houses, and men were blown down that headlong iuto soft mud and water. This they might be more rapidly consumed, was a most fortunate occurrence for him, Men, women and children rose again to as his clothing had already been scorched rush like spectres through the flames, and by the flame. He ran forward at his fell separated from each other. In this greatest speed, hearing the fire roaring on terrible moment men thought the final all sides, and when he reached the end day had come when the earth should be burnt, and they bowed themselves to offer cheeks as he passed around the swamp

to his store, and resignedly walked to and edge of the country, and now he ran for fro in the room, awaiting the awful con- ward with but one idea of keeping in adthem a desolate wilderness, yea, and Langworth passed beyond the roar of the nothing shall escape them. The appearance of them is as the appearance of fate which for a time seemed ceatain. He horses, and as horsemen, so shall they knew not which way he was travelling, run. The earth shall quake before them; and cared not so long as he could keep in the heavens shall tremble, and the sun advance of the fire. The smoke was so and the moon shall be dark, and stars thick that he had to press forward like shall withdraw their shining.

The best data give the loss in the Sugar
Bush and Peshtigo at eight hundred. On the cast shore forty bodies were found in fire everywhere. Swamps were blazing. one field. They had fied to the field hoping to escape, and they ran into the worst place posible. Small clearings were more being caten up as if it were dry peat. He had to pick his way between and around
